

Purchase Prices

The Trees - Cheong Mon

The retail price for the properties is Fourteen Million, Seven Hundred and Fifty Thousand THB (14,750,000 THB). This is based upon a price per square meter of Seventy-Seven Thousand THB (77,000 THB).

As part of our launch we are offering several buyers the option to secure a property at a discounted price. A Furniture Package will be offered also at a discounted price.

ECO has already sold several properties to Australian colleagues through this discounted promotion: We are offering a "Trees Pool Villa" at Fourteen Million THB (14,000,000 THB), which represents a Five Percent (5%) discount on the retail price.
